THURSDAY EVENING, SEPTEMBER 8.

A TORNADO.-The tornado which visited Toledo, Ohio, Tuesday, originated in Southern Michigan. It first struck Sylvania, a village ten miles north of Toledo, blowing down two gas well derricks and wrenching a boiler from its brick foundation. Two horses in a wooded pasture were killed by falling trees. All tall trees were leveled. A brick school house at Michie was destroyed. The track of the tornado was south by east from Toledo along the line of the Toledo and Ohio Central Railroad. Corn is scat-tered and houses and barns are unroofed for tered affd houses and barns are unroofed for miles. At Waterville and other villages to the southward much damage was done. No loss of life is reported. The elate roofs of a number of buildings were badly damaged, and the towering chimneys of the main building of the insane asylum were blown down, crushing in the roof. The total loss to the asylum is \$3,000. Dr. Embury, the assistant superintendent, was driving into the grounds at the time, his wife and little daughter being with bim. The buggy was overturned and all three were thrown out. The doctor held on to the horse, which, with vehicle, was lifted and carried several rods. His wife and child were carried over His wife and child were carried over a hundred feet and dropped into a ditch in two feet of water, from which they were rescued unburt. A Wabash train met the centre of the tornado, and the smokestack of the locomotive was carried off.

THE VALUE OF THE SUNFLOWER.-It is stated on the authority of a Cuban journal that since the sunflower has been cultivated in certain swampy districts on the banks of the river Potomac malarial fever has almost ceased to be endemic there. Similar beneficial results appear also to have followed the cultivation of this plant in the neighbor hood of the mouth of the Scheldt in Holland. The editor of the Monthly Journal of Pharmacy, who has been engaged in observations on sunflowers, found that during the month of June, 1885, a quarter of an acre of sunflowers arheled with a macy temperature. sunflowers exhaled, with a mean tempera-ture of 70° F. at midday, exactly 1,950 gal-lons of water in the form of vapor, or 65 gallons a day. He attributes the anti-malarial action of the sunflower, therefore, not only to its properties of absorbing and destroying the malarial miasm and of emitting an abundance of pure oxygen, as taught by other writers, but also to its great capacity, owing to its rapid and vigorous vegetation of absorbing and utilizing the moisture of the soil in districts which are unfit for man's habitation. He likewise suggests that the aromatic odor of the flowers may perhaps be possessed of antiseptic virtues.

## Alexandria Gazette.

The GAZETTE is now the oldest paper in the State, and with few exceptions the old. est in the country, and its usefulness has been demonstrated and appreciated during the eighty-seven years of its existence. In its columns has always been found a mirror of passing events, and the careful chronicling of the history of what is going on in the world has ever been its aim. It is always welcomed in the household, while in the counting room and workshop at has become

The GAZETTE has better facilities for obtaining news than any paper outside of the national capital. Situated as it is so close to the great centre of news, it enjoys daily the benefit of the Associated Press dispatches from every part of the world; hence its patrons can read from its columns in the evening what has transpired that day in every portion of our own domain as well as from every part of the habitable globe, Consequently it is an every day occurrence for the GAZETTE to publish telegrams from the various European capitals tweive and fifteen hours earlier than the morning pa-

Another feature that serves to make the GAZETTE a great desideratum with mer chants is its afternoon market reports from New York, Baltimore, Chicago and other

The local department furnishes a full and complete history of everything that occurs n and near the city, and this feature will. as ever, receive careful attention.

Correspondence from Washington, Richmond and every section of the State, is published regularly, and all events of interest occurring within the bounds of the Commonwealth are to be found in the columnof the GAZETTE.

The GAZETTE's circulation is steadily in creasing, especially among people who consult its advertising columns before purchasing. That this is self-evident may be inferred from the fact that a large country edition-nearly as large as the daily--is sent all over this section of country three times a week, and is read by thousands, most of whom send here or to contiguous cities to make purchases. The advantages of advertising in the GAZETTE are, therefore, ap-
